Mr. Horn is a Painter by profession, and invites public attention to his style of painting Photographs. These pictures EXCEL THE FINEST PAINTING UPON IVORY, and while they equal the works of the masters in their delicacy and richness of coloring, far surpass them in exactness of delineation and PERFECT FIDELITY TO FEATURE, expression and nature.
Friends, relatives and lovers may now rejoice in the possession of perfect likenesses, at a price that places them in the reach of all. Our painted Photographs are warranted to be all that is here represented, and we guarantee them to preserve their color without fading, at least as long as paintings on ivory.

INVARIABLY IN ADVANCE.

NEWS OF THE MORNING.

We have stirring news from Central America. The Filibusters have encountered a serious defeat, and it was thought that Gen. WALKER's reign was drawing rapidly to an end.

Some interesting intelligence comes, by the same arrival, from California and Oregon.

Our New York and Washington correspondence, this morning, is full of interest. "Violet's" graphic letters deserve attentive reading.

Lake Erie is partially freed from ice, and steamers are beginning to ply between Detroit and Cleveland.

We refer the reader to our advertising and local columns, for a host of new advertisements, business notices and news items.

Prof. Daniels' Letter—The condition of Kansas.

We conclude to-day Prof. Daniels' very interesting letter on the physical features of Kansas. He has proved himself a most efficient agent, and we wish that Kansas had just now a reinforcement of a couple of thousands of just such resolute, wideawake western men as he is. We met him yesterday, just returned from his tour, having left Lawrence last Friday, and learn from him that another letter, forwarded a week before he left, on the political condition of the Territory, has not yet reached here.

In conversation with Prof. Daniels, his statements of the indignities to which many of the free state settlers are subject from the ruffians living near the border, and indeed from the officers chosen by the fraudulent Legislature, are enough to make the blood of any freeman boil within him. The "free state" men are confident of *making* Kansas a free state, but their confidence arises from the fact that they believe that the people of the northern states will soon render them sufficient aid, in the shape of men, arms, and money. Thousands of armed ruffians, under pay of the pro-slavery interest, are encamped in the western counties of Missouri, ready at any moment to move over, and indeed occasionally making a raid across the border, and driving off some obnoxious settler from his claim. Arrests on frivolous pretexts by the territorial officers are constantly made, whenever the powers that be are offended. All this will stop just as soon as the ruffians learn that the free state men are in numbers enough, and sufficiently provided with arms to withstand them. Resolute *western* men, accustomed to meet and ready to face danger, are wanted, and, if we mistake not the signs of the times, they will soon be on the ground. The cause of the freemen of Kansas is the cause of the North, and should be everywhere regarded as such.

ONE OF THE "FORTY" TURNED UP.—The Oshkosh *Courier* learns by a private letter, received by a gentleman in that city, that Walter H. Beasley, formerly of this State, has received the appointment of Quarter Master General in General Walker's army in Nicaragua.

We infer that MR. BEASLEY is not "coming back immediately" as the Madison *Argus* confidently announced some weeks since.

NEWSPAPER IMPROVEMENT.—The proprietors of the Madison *Journal* announce that they are about to enlarge their Daily to a seven column paper and to put it in a new dress throughout.—The *Journal* is an excellent paper, faithfully and zealously devoted to the Republican cause and principles, and deserving of all encouragement from the friends of Freedom in this State.

GOOD THING.—The *Oshkosh Courier* has been selected as the official city paper of Oshkosh. That city is the home of "Gov." Bashford—the *Courier* is a staunch Democratic paper. How the Supreme Court and its Governor is endorsed!—*Madison Argus.*

The *Argus* catches at "straws" and misses its figure, at that. The *Democrat*, not the *Courier*, has been selected as the official city paper of Oshkosh: and the *Democrat*, it is hardly necessary to say, is a stanch Republican paper. Oshkosh, like all the rest of the State, repudiates BARSTOW and his "Forty" backers.

GOOD SPIRIT.—The Buffalo *Republic*, in an article in relation to the declaration of the Chicago *Democrat*, refusing to be bound longer to the Slavery car, uses the following language, which will find an echo in the hearts of thousands of democrats in Wisconsin:

We have said that hundreds and thousands of the democratic host are prepared to follow his example, and no man who rightly interprets the signs of the times, can fail to arrive at any different conclusion. Men who were born in the democratic faith as understood by Jefferson, Jackson and Van Buren, nourished in their youth by those principles whose self-evident truths commend them to the heart of every true friend of liberty, and who have grown grey in fighting battles for human rights and freedom, will no longer acknowledge allegiance to an organization which not only exerts its utmost energies to crush out every vestige of those principles, but betrays freedom into the hands of slavery, insults the feelings, and outrages the self-respect of every honest man, and by the indecencies of its official mouthpieces, holds up our common country and the cause of human freedom to the scoff and scorn of the world's despots, and the ridicule of every impartial observer of the workings of the institutions of self government.

NEWSPAPER REMOVAL.—MR. DOMINIC CASEY gives notice, in the last number of his paper, the Waukesha *Democrat*, that he intends to remove the publication office to this city, and at the same time to enlarge the size, improve the appearance and change the name, but not the principles of his paper.

THE "RENTON PROCESS" BOATS.—Damages to the amount of $24,876 have been recovered in Cleveland against Jas. Renton, for fraud in the sale of his patent right for making iron from the ore. A company had gone to heavy expense, and found the process a complete failure; hence the suit.

NEW REPUBLICAN PAPER.—A new Republican paper is about to be started at Appleton, Outagamie Co.,—a good field for an enterprizing man and good editor.

FOND DU LAC POST OFFICE.—The business of the Post Office at Fond du Lac has increased sufficiently to bring the office within the limit of Executive appointment, and the present postmaster has been nominated and confirmed by the Senate.

APPOINTMENTS AT FOND DU LAC.—The Common Council of Fond du Lac, have appointed E. S. Bragg, City Attorney in place of B. E. Wood resigned, and Wm. Pinney City Marshall vice D. Banks, resigned.

AID FOR KANSAS.—The people of Delton, Sauk Co., have had a good meeting, and fourteen volunteers for Kansas came forward, headed by Prof. HASCALL, principal of the academy. The citizens pledged the necessary means for a suitable equipment. Those who go are said to be excellent men in every respect, and will make the best of citizens for the new State. A correspondent of the Buffalo *Republic* says:

"Among the articles not forgotten, is that which so thoroughly in the hands of Free State men—has such a magic power to quell the ardor of Border Ruffianism, and sends consternation to the heart of the slavery propagandist. If on arriving in Kansas, and while there, active service in the field should be required of them, the people here solemnly pledge themselves that they shall not want for Sabbaths and where-withal to be fed."

Well done for Delton!

From Our Washington Correspondent.

WASHINGTON, April 10, 1856.

The results of the recent elections in Rhode Island and Connecticut—in which latter State especially, a vigorous campaign was conducted—have given great satisfaction to the opponents of the administration here, and not least among the consequences to be rejoiced at, is the gain of two reliable friends of Freedom to succeed, in the Senate of the United States, General James and Ex-Governor Toucey; both of whom are thus pronounced by their respective States unfit representatives of the interests and wishes of their free constituencies.

The strongest efforts were made by both of these gentlemen, backed by the whole power of the Administration, to secure their re-election; but the *fiat* has gone forth, and in no Northern or Eastern State can the supporters of the Slave policy, the approvers of the infamous Fugitive Slave Law, or the violators of the Missouri Compromise, hope now to receive, from the people they have misrepresented and betrayed, any other than a verdict of entire condemnation.

So rolls on the ball, not to be turned back surely by New York, New Jersey, or Pennsylvania, and destined, it cannot be doubted, to receive additional force and momentum from those great Western States, which owe their almost magical prosperity to their happy exemption from the withering curse of "the peculiar institution."

The prospect brightens, and with union, compromise, concession—not of principle, but of some prejudices and preferences perhaps—all for the cause and nothing for the mere man—the great triumph will yet be won; and the General Government, instead of continuing to be, as it has so long been, an instrument for extending the interests of Slavery, will be returned to its legitimate aims and objects, the care and supervision of the whole people of these United States.

The House of Representatives—for the last week again—has been occupied almost wholly with political speech making, the opportunity being taken, while in Committee of the whole upon the various appropriation bills, to indulge in the widest latitude of debate.

Gen. Granger's radical, anti-slavery speech was listened to with deep attention, and will be circulated in the Southern States as an evidence of the extreme sentiments entertained by the Republicans generally. So on the other hand the addresses of Judge Warren of Georgia, of Mr. Keitt of South Carolina, and of a Mr. Shorter from Alabama, will be extensively republished and cited at the North for similar reasons. The first named gentleman was open and frank in his declaration that Slavery needed no law, but, from the necessity of the case, made the law for itself—that it exhausted territory and must have new soil therefore; while the Alabama representative was for meeting the North, with sword in one hand, and a rifle (Sharp's) in the other to whip them out—and "nothing shorter" I presume!

In the Senate Mr. Geyer of Missouri, felt himself compelled to defend his constituents in a dreary two days speech, which was followed by one of Gov. Seward's compact, strong, able, statesmanlike arguments, in making which he is confessedly without a peer. His audience was large, and the effect of his speech unmistakeable.

Meanwhile, behind all this speech making, the Committees of both Houses have matured a large amount of business which will be presented, with little delay, for the action of Congress. Liberal appropriations have been recommended for the improvement of harbors and rivers, and the grounds set forth, in elaborate and well directed reports, of the necessity of action, to prevent great loss of life and property, to remove obstructions to commerce, to facilitate and encourage the speedy settlement of new Territories, and in these ways to return ten, twenty, or a hundred fold, to the National Treasury and to the general wealth of the country, the comparatively trifling sums required for the contemplated improvements. The interests of Wisconsin and of the great Northwest generally have been well looked after by their representatives. Congress will pass the appropriations, and the Chief Magistrate of the country will then have the decision in his hands and will be held by the people to a strict accountability thereon.

As an evidence of the immensely increasing commerce of the Northwestern Lakes, I append a statement of the tonnage of vessels and of the amount of revenue collected annually at the ports of Chicago and Milwaukee from 1850 to 1855 inclusive.

Waukegan Election.

Waukegan went Republican by a round majority. The vote stood Republican, 267; Black Democracy, 148. The *Gazette* says that Waukegan is good for 150 majority next fall, and Lake county for 1,000.

JUDICIAL ELECTION—SIXTH CIRCUIT.—The La Crosse National *Republican* gives the following returns of the Judicial election in the North West Circuit and claims that Judge KNOWLTON is defeated by his competitor, GEORGE GALE, by from 2 to 300 majority.

FINED FOR ILLEGAL VOTING.—A man named Donnelly, was fined $25 and costs at Janesville, on Saturday, for illegal voting at the late election. Another named Quinn, was held to bail in the sum of $200, for the same offence.—*Wisconsin*, of yesterday.

A third man named CONROY was arrested for voting three times at this election, but gave "leg bail," and thus escaped merited punishment. All three of these "Waupaca" practitioners voted for the Barstow ticket, but it was beaten nevertheless.

MICHIGAN TOWN ELECTIONS.—These elections over which the Detroit *Free Press* raised such a premature "hurrah," which our neighbour of the *Free* made haste to copy, have resulted in a signal triumph for the Republican cause. The Detroit *Advertiser* of Monday gives returns from a large number of counties, concluding as follows:

Every county so far as authentic reports have reached us, has elected a majority of Republican Supervisors.

PLUCKY.—The Galena *Advertiser* says that the London & Liverpool Insurance Company have authorized their agent there, Mr. J. FARMER, to draw on the Company at sight for the amount of their losses by the late fire—between $150,000 and $200,000.

LUMBER ON THE BARABOO.—The Sauk Co. *Democrat* says that over 2,000,000 feet of lumber is the log, on the head waters of the Baraboo rive., is all ready to be floated down to the mills.

Men and Things in Gotham.

NEW YORK, April 8th, '56.

Messrs. Editors:—The past is forgotten, the present is everything and we are perfectly satisfied. The winter has rolled itself away like a scroll and Spring in the panorama of events begins to unroll itself, and day by day exhibits some new phase of beauty, and the face of the great audience is wreathed with smiles. Hail to thee, Spring, thou maiden of beauty, whose steps are on the land, tho' thou dost look so lovingly on so many lovers, we cannot call thee coquette, albeit, a cloud steals o'er thy face at times and unexpected tears drop fall from thy eye and almost drench the earth, thou art liked the better for these smiles and tears, for they increase the traffic in umbrella-, and tell of future wealth to tillers of the soil the broad land over.

"The parks are going through with their toilet and the pretty garden spots up town, and soon will appear in gorgeous array, dressed, I suppose, in Lincoln green, like the foresters of old, but the dirt of the huge city will soon dust their juvenile habiliments, and cover their incipient freshness, as with a blanket. The hot houses, which adorn aristocratic mansions, look lovely; their rich inhabitants outdoing Flora herself, appear in their windows to astonish the pedestrian with their lavish beauty and make him slacken his pace, as if reluctant to lose the gush of perfume which so pleasantly assails him. The gardiner is at work with his pruning knife, pruning trim hedges or lapping off ugly boughs, which mar the symmetry of some ornamental tree. The boys are flying kites, and the cry of "knuckle down" and "fen boistings" are heard in the streets; the business man leaves his overcoat at home, and the bucks of tender and mature years are glittering on the "pave" in all the glory of spring buttons and patent leathers, while the ladies, lord love them, are so elaborately got up as to be beyond all power of description. Verily the season hath its charms, fleeting though they be. A few weeks will change it all, the town will seek the country, and mar it by the contact. Gotham will sleep in quiet for a while, and become stale, hot and stupid, but dont let us anticipate. The tide of foreign travel has set out, and thousands are seeking abroad these pleasures they do not care to find at home, for as Mons. Beauvallet says in his excessively French letter, this is a stupid country, nothing in it, and Paris is the world. Perhaps there is a charm in feeling "every land's my home," and perhaps it is true that they know nothing whose pathway from the cradle to the grave, is without variation. The "Persia" carried abroad some 280 passengers last week, and the new Havre "liner" the "Fulton," one of the most magnificent and substantial of our Ocean steamers, a goodly company. An inspection of the former without attempting a description, convinced me of as near an approach to perfection, as could well be imagined, while her noble size filled the eye with wonder and admiration. Every thing about her is English, which on that ground alone made her somewhat a curiosity, while her shape is symmetry itself, and her sharpness an example, even to an American Clipper.

Yesterday the "Adriatic" was launched up town from the ship yard of Geo. Steers. She belongs to "Collins" line, and is the largest craft afloat, her tonnage being 5000, while her beauty surpasses every previous work of an American builder. The day was fine in the extreme and it is said, 70,000 people witnessed the great spectacle. Every housetop and foot of ground, and floating craft far and near, being a living mass of humanity. The scene was very exciting, and different entirely from that when the "Niagara" was launched, which was comparatively a tame affair, but this time, the huge steamer shot away from her bed into the stream like a rocket—anchors were thrown overboard, but were ineffective as fish hooks—away she sped, and the distant city of Williamsburgh, thought the monster was about to ride it down like a juggernaut car, and her fears were not wholly without foundation, for the "Adriatic" was not stopped in her career till she had embedded herself some 15 or 20 feet in the dock at Green Point, which were crushed like eggshells and made no impression on the strong bow of the invading giant. Mr. Thatcher, my self among the invited guests, and no doubt thought highly of the transaction.

Demolition is going on to a considerable extent here this spring. The old "Irving," so called, is fast coming down with its granite front. Masonic Hall, above and opposite, whose fortunes have been varied like those of a decayed gentleman, or rather broken down rou, descending from great respectability to being the abode of ten pin alleys, shooting galleries and haunt of rowdies and home of abandoned model artists, soon follows suit with its neighboring rookeries, and the palaces commercial of merchant princes will rise out of their ruins, to make Broadway newer and more magnificent than ever. Various other localities on this street, as well as on Chambers, Warren, Barclay, Vesey streets, will be similarly improved, and it is a wonder to notice what splendid structures are raised remorselessly to the ground, because they are not quite so convenient or remunerative as they ought to be. It would seem to require a nice calculation to find out where the profit can be, but those making the apparently hazardous changes, know well what they are about. In Barclay street, among the doomed batch, is the once splendid and much admired residence of Robt L. Stephens, and I can recollect well when people went far out of their way to gaze at its inner magnificence and curious outward Egyptian decorations, but who stops to look at them now, where the barricades of dry goods boxes on either side, absorb all attention and compel the pedestrian, hurrying to and fro, to look well only to his own personal safety. Should you work up so far as 23d st. you will be surprised to find that the extensive Hippodrome, like the palace of "Aladin," exists no longer. Stores, stores are to be built there too. Who says we aint a nation of shopkeepers, with the whole Atlantic coast for a counter, and every mothers son of us a "jumper?" The home of Roman sports, on a reduced but puffed scale, did wonders in coining money the first season, but thence forth the wind of fortune forsook its sails, and the craft went astern at a fearful rate, and became finally engulphed in the sea of disastrous speculation, well known, though not laid down in the charts. Stanwix Hall too, where Bill Poole was assassinated, feels the change and soon, where bullets flew thick and fast at midnight, and left their traces on counter and wall for the curious to inspect and the thoughtful ponder over, Ladies will be pricing cashmere shawls, or lingering lovingly over some elaborate fabric, which tempts the eye and purse. Could imagination point a stronger contrast than these scenes exhibit, amid which we daily thoughtless walk!

An extension of the Crystal Palace lease has been sought for and lost owing to the remonstrance of property holders in the vicinity. They state that the ground was intended for a Park and real estate has been much injured by its having been diverted from its original object. "Barnum" says his ambition is gone and that he doesn't intend to "try again" and asks what is the use with $100,000 hanging over his head. Poor man! 'twas more than a feather that broke his back and a most cruel chance, but the philosopher can bear all things, aye, look straight in the eye of fate, and Mr. B. is going to turn that, if he can—may he have sufficient capital to carry him through.

People begin to talk of the yellow fever here because they had it at Norfolk last year, and they talk of sprinkling the streets with salt water instead of Croton; these unhealthy reasons, together with the sea of filth which swamps us, are not such bad reasons for fearing a visit from "yellow jack." After all 'twould be odd to see the grass grow in Wall Street again, wouldn't it!

"Lagrange" bade our musical world farewell last night in Don Giovanni. Crowds have attended the Academy of late, and Miss Phillips' second appearance was quite a triumphant one compared to the first, when the poor girl sung, a day or two after burying a dear mother. The public here was not conscious of the heroism which made her answer the stern call of duty, and so were very uke warm in their praise. "Wallacks" has been thronged of late, his masterly Shaksperian performances being the attraction. "Hiawatha" in Indian costume, by all sorts of "Darlings" is a mania at present, and very like a mushroom, though 'twill help to sell an extra 1000 copies of the pleasant Legend. Everett lectures in Brooklyn on Washington, to-morrow, tickets $1, for the purchase of Mt. Vernon, which it seems is not for sale. Brooklyn is managed by an ignorant and conceited few, and the lecture is intended expressly for them. But I must close, being

Yours, VIOLA.

SECRETARY WISCONSIN }
KANSAS AID SOCIETY }

LAWRENCE, March 29, 1856.

Lumber is high. Cottonwood, oak and blackwalnut, sells at $30 per M. This is transient as it is caused by the scarcity of saw-mills which are really the great need of this district. Stone however, is abundant and is extensively used for building purposes. Sand and lime are here in every valley and pressed brick can be made cheaply. Clay for common brick of the best quality is found as well as fire-clay, in the decomposed shales of the coal formation. Everybody builds of log or stone. In the country teams are made up of horses, mules and oxen. The latter are the most desirable in starting a farm. Working oxen sell from $60 to $125 per yoke. Horses cost from $100 to $150 along the line in Missouri where they are quite abundant. Indian ponies can be obtained at from $40 to $100. Cows are cheaper than in Wisconsin, and can be bought at from $18 to $40. Ploughs and other farming utensils are about the same price. If emigrants have them let them bring them along, rather than sell them at a sacrifice. Every thing that is useful however, can be purchased at any of the principal towns on the Missouri river.

COST OF LIVING.

I append below the price current of Lawrence, which gives one some idea of the present cost of living, where one has to buy all the raw materials Many of the agriculturist products are excessively high now, but this price depends of course upon the rush of emigration, and will be obviated in another season. This table of course gives the retail prices.

Wheat is $1 50 to 2 00 per bushel. Corn in the ear 50c; shelled corn 75c. Turnips 30c. Pork can be readily obtained in Missouri at 2 or 3c. per pound cheaper than it is here. Hogs fat upon the acorns of the burr oak, without the slightest care or attention, and pork must be very cheap for years to come. Wild meat, deer, buffalo and wild fowl are cheap and abundant. Beef and tallow are cheaper here than in Wisconsin, and must be still more so as cattle are being brought in extensively.

ROUTES FOR EMIGRATION.

The young men without families, who have no teams, furniture or tools to bring, had better come down to Alton, Ill., and take a boat for Kansas or Leavenworth City. The present prices of passage are very high—$17 from Alton to Leavenworth City. The ordinary rate of fare is $10 or $12.

The expense of a passage from Milwaukee would not exceed $30 in the summer time. For families, the land route through Iowa and the corner of Missouri to Fort Leavenworth, or Atchison, Mo., is far preferable. No difficulty will be found in crossing by this route with teams, as soon as the feed starts in Iowa, which will probably be about the 1st of May. It would be safe to wait till the middle of May, and make a thorough preparation. No disturbance need be apprehended by a strong party, passing through Missouri, if it be prepared for any emergency. This wagons should be well covered, and the top painted, so as to be water-proof. A cabin should be provisioned and cooking stoves to live in their wagons till claims could be secured and houses built. It is a very pleasant mode of life in this latitude, and quite a charm to pioneering which most people relish heartily. Oxen are preferable in the main to a team, but if a man has good horses, he had better bring them. The trip across Iowa will occupy about four weeks, and would be a more pleasure excursion to people who are not effeminate or foolishly fastidious.

REFERENCES &c.

Settlers will find themselves very cordially received in every part of the Territory. At Kansas City the emigrant will find Mr. Eldredge, of the Free State Hotel, ready to give them reliable information. From Leavenworth City which is a fine point for settlement, Emigrants can go back into the country and will there find Stephen Sparks 3 miles from Easton, also, William Semock, either of whom will put them on track of good claims. At Lawrence John Hutchinson, Wm. Blood and Mr. Ladd, formerly of Wisconsin will gladly give them information. Seven miles south of Lawrence in a splendid district, Augustus Wattles, one of the noblest, most generous and devoted of the Free State men, is to be found. At Centropolis 27 miles S. E., of the prospective capitol, Wm. Fuller the proprietor, and a member of the Free State Legislature &c., will direct a hundred men to good claims. The prices of all public conveyances are enormously high—$6,00 is charged for 40 miles carriage, tavern bills about the same as in Wisconsin. An emigrant train would however be independent, having its own teams and taverns. The women could live quietly without expense in camp, while the men took their leisure in hunting up claims. The secret of success in this business lies in taking time to make good selections, which a man is not likely to do while himself and family are on expense. The roads are excellent and one may drive an easy carriage all over the Territory, without impediment. As to expenses of the land route it is impossible to state definitely as each family or individual will calculate it best in each special case. One instance will perhaps throw some light upon the expenses of this kind of travel.—Mr. Augustus Wattles moved his family of 8 persons, with 5 horses from Indiana, 700 miles, carrying ploughs, furniture &c., and being 20 days on the route. His only expenses were toll ferriages, repairs and provisions; as the family slept in the wagons and cooked out of doors, the cost of the trip was $40. The same by water would have been $250.

I have thus furnished you such facts in regard to the inducements which this region holds out to the emigrant as are entirely reliable. I have certainly never seen a country which unites the elements of good soil, climate, health and commercial advantages in a richer combination than this.

A man may come here with nothing and be sure of employment at high prices as soon as he lands. He can secure his claim and work near it till he gets enough to enter and improve it. The land is surveyed back from the river nearly a hundred miles, so that the difficulties and uncertainties of roads and conflicting claims need no longer be feared, and the settler can make permanent improvements without risk. Whatever is raised can be sold at good prices, as the rapid influx of immigration will not only consume all the products of Kansas, but draw largely upon Missouri for a long time to come. Besides this, Kansas must supply the military stores of all the forts and posts to the westward which is an important market of itself.

Mechanics of all kinds are in great demand, particularly joiners and masons. Coarse cabinet work, such as chairs, tables, bedsteads, &c., are much needed. Wagon making is a great branch of business. The Santa Fe and military trade require immense quantities of wagons which ought to be made here.

The Missouri river being navigable for nine months in the year, and the Kansas the same length of time, for small boats, offer easy and cheap communications. Railroads will soon enter Kansas from Missouri and Iowa, bringing the Atlantic cities within three days ride of the border. The character of the population will be superior to that of almost any Western State. The settlers are energetic, and occupying as they do, a central position in the continent, feel that much is expected of them, and have a loyal pride in building up the institutions of civilization. Schools and churches are being organized and built up wherever a settlement is made, and such privileges will be enjoyed by the mass of the people here at an earlier juncture than has ever occurred in the history of any other State.

The commotions are now quiet, and any resolute, determined man, may come here and experience no interruption. The border ruffians do not disturb such men on ordinary occasions. Every man who comes, should be ready to meet the grave issues of this all absorbing question of freedom or slavery. Still if there are those who are troubled with a constitutional spinal weakness, they may be of use in improving the country, and they may find the free, bracing air of those glorious hills, and the association with brave men, instrumental in restoring them to a healthy condition. Men straighten up wonderfully here, and doughfaces get baked hard in these prairie fires. If a man has any patriotism, (even the least spark of that almost fossil virtue lingering in his bosom) it would seem a glorious thing to come with his loved ones to this land of sickness, bloom and beauty, and help to secure its freedom. Every true free State man who comes here, serves God, the cause of human progress, and himself most of all. Uncounted thousands can find pleasant homes in Kansas, where thrift and comfort wait to crown industry with wealth and honor. But four thousand emigrants from the free North, good and true men could here and stand by the cradle of this young Commonwealth, till the vampire brood who seek to strangle her, shall be driven back to their hiding holes of darkness, and Kansas is sure to be Free. Three-fifths of the settlers to day, are free State men, but the South is sending in a heavy emigration, which will soon neutralize the present majority. We must meet them in this war of emigration. For God and Freedom's sake, let the NORTH, guard this great interest with sleepless vigilance.

Yours truly,

EDWARD DANIELS.

THE ICE IN THE STRAITS.—The Detroit *Tribune* of Monday evening last, contains the following paragraph

A letter from Mackinac states that the ice is of unprecedented thickness, and that the Straits will not open before May 1st.

PROSPECTS FOR NAVIGATION.—A letter from Dunbar, dated April 12, states that on that day teams were crossing from Grand Haven to the Straits, and that a steamer could make a direct trip across to Bay de Noc. POLICE COURT, APRIL 16.

BEFORE CLINTON WALWORTH, POLICE JUSTICE.

Samuel Brown, drunk, fined $1.00; Catherine Ryan, drunk, second offence, sent to jail 30 days in default of $5.00 fine; Lon Neidhaecker, drunk and breaking windows, fined $5.00 and costs; the defendant plead guilty and had to pay the fees of three witnesses; William Thompson, drunk, $1.00, in default 5 days in jail: Joe Carrigan, drunk, $1.00.

A woman of masculine appearance named Elizabeth Bartlett, and a man named Patrick Coll, were brought round from the Watch House, and a complaint made out, charging the man with having the night previous committed a rape upon the woman in the street. The woman hesitated about swearing to it, and after consulting with the District Attorney that form of complaint was abandoned, and the man discharged.

THEATRE—YOUNG'S HALL.—The "first night" of Mr. Thorne's "Star Company" attracted a very large audience at Young's Hall, last evening, and was triumphantly successful. Miss EMILY THORNE, with her pretty face, winning smile and spirited acting, made herself a favorite from the start. Mr. LEWIS MORRIS and Mr. LESTROHGE were especially favorable; Mr. THORNE himself, as *Horace* in the "Old Guard" won the enthusiastic plaudits of the audience. Mrs. THORNE, too, as Mrs. Middleton in the "Little Treasure," and as "Gertrude" in the "Loan of a Lover," made a decided hit. Indeed, all acquitted themselves well, and gave promise of many attractive entertainments at Young's Hall. We congratulate Mr THORNE upon the decided success of his opening night, and the public upon the character and quality of his "Star Company."

They perform again to-night, offering a capital bill.

By some provoking carelessness, the GAS went out *twice*, last evening, to the great annoyance of Manager and public. Care will be taken that this blunder does not occur again.

BACK OF THE POLICE OFFICE.—In the rear of the Police Office is a yard, and in that yard, and in that alley behind the yard, we venture the assertion, that there is as much filth collected as upon any spot of the same size in the direst "back slums" of St. Giles, the purlieus of the "Old Mint" in the borough, or in the filthiest portions of Paris, Dublin, or "Edinboro' Town." For the past three years, we have appealed to the different City Marshals to direct its be cleaned, but all to no purpose; it has gone on accumulating year after year, until now. If an unhealthy summer should be our fate, the seeds of many deaths by putrid disease, cholera, &c., festering at the back of the Police Office, and the inmates are compelled to breathe its noxious atmosphere.

Whose duty it is to see that these places are kept clean we don't know; it cannot be the Marshal's, for all of them for three years past, have neglected to attend to it. When the enforcing of the city ordinances falls to the lot of the Police, we may expect to see the Police Court, as well as other places, cleaned of its filthy surrounding; as it is now, it is dangerous to any man's health, to stay more than ten minutes at a time, without going out for pure air, to resuscitate him.

CLEMENT'S STEAMERS.—The Steamers of Clement's Line have commenced their regular trips from Chicago to the port and Sheboygan, touching at the intermediate ports. They leave Chicago every evening at 8 o'clock, for this port, and leave this port every morning for Sheboygan, and every evening for Chicago. For the present, the *Cleveland* and *Traveller* will ply between Chicago, Milwaukee and Sheboygan, and the *Huron* between Milwaukee, Manitowoc and Two Rivers. The *Adelaide* will soon be added to the line, which will then be extended bi-weekly to Green Bay. Geo. C. DEAN is the Agent at Chicago, and KELLOGG & STRONG have charge of the business here.

NEW MAP OF THE U. S.—We mentioned, yesterday that Mr. J. D. HARRIS was about canvassing our city for subscriptions to Mitchell's new National Map. Yesterday we had an opportunity of examining the map and can cordially commend it to our readers as eminently deserving patronage. It is of the largest size and exhibits the whole of North and Central America, Cuba, the West India Islands, the Sandwich Islands, &c. The Overland and Steam routes to California, Oregon, Kansas, &c., the proposed routes of the Pacific Railroad; the line of Dr. Kane's explorations and the place of his Winter quarters; the Territorial State and County division lines; the innumerable Railroads, projected or in progress, all over the Union; and the names of every city, town or village of importance in the U. S., are laid down on this map. The lettering is clear, the coloring tasteful, and the mounting substantial. Valuable statistical tables of distances, population &c., are to be found on the margin of the map.

PHRENOLOGICAL BALL.—Professor PALMER wound up his series of Lectures on Phrenology by giving a Ball on Monday evening at Young's Hall. The arrangements were on a liberal scale; the music excellent; the supper substantial and strictly Temperance; the attendance of guests large; and the enjoyment of the company unquestionable. Towards the close of the evening, the Professor was called out for a speech and made a good one, his audience giving him three cheers with a will. The party broke up some time after midnight, highly delighted with the evenings entertainment.

REAL ESTATE AND COLLECTING AGENCY.—It will be perceived that J. S. FILLMORE has entered into the Real Estate Agency and collecting business. He is enterprising, industrious, and energetic and as business conductor of a newspaper, has had a valuable experience.—He is well known as one of the promptest collectors in the State, and we have no doubt that he can turn his abilities to good account in so rapidly a growing City as Milwaukee. It is a busy time, and Mr. FILLMORE is a busy man.—*Wisconsin*, of Tuesday.

That is so, and those who wish to avail themselves of Mr. FILLMORE's services will find him always ready at No. 2 Juneau Block.

REAL ESTATE SALE—PLANKINTON'S ADDITION.—Wall sold at Auction yesterday 45 more lots in Plankinton's Addition, at prices ranging from $225 to $305 per lot. The aggregate sales reached $12,895, the average being $278 85 per lot. Of the whole addition, laid off into 400 lots, 172 lots have been sold, realizing $47,450. The rest are reserved for private sale, but will be disposed of on easy terms and for reasonable prices, on application to Mr. WALL, or Mr. PLANKINTON. Mr. P. who gave $75,000 for this property a few weeks ago, will probably realize $50,000 by the operation.

HARPER FOR MAY.—We are indebted to Messrs. WALLACE, AUSTIN & BURKE, of 25 Clark street, Chicago, for an early copy of Harper for May. The number is a capital one; full of good reading and graphic illustrations. Four more chapters of "Little Dorrit" and interesting accounts of "Commodore Perry's Japan Expedition" and the "Silver Mines of Central America," are the leading attractions of the number.

BURGLARY ON EAST WATER STREET.—On Tuesday night the Saloon under Schenkis confectionery on East Water street, was broken into and the money drawer robbed of its contents[] about $40. The entrance was effected by taking out a pane of glass.

DEMENT HOUSE, FULTON CITY, ILL.—This is the name of a new and handsome Hotel about to be opened in Fulton City, Illinois, by Mr. J. L. WATKINS. Mr. J. GRANT, of this city, who painted the interior, has brought us a handsome lithograph plate of the house, which we have hung up in our *Sanctum*.

A CHANCE FOR SPECULATION.—A fine opportunity for a speculation is to be found in our advertising columns to-day, in the shape of farming and timber lands, brick yard, pier, and in fact a whole settlement, a few miles south of the city. Full particulars as given in the advertisement, and particular attention is invited to it.

☞ MACK BROTHERS, at the "Milwaukee Saving Store," are out with a fine display of Goods, just received, and to which they invite attention in their display advertisement to-day.

DANCING ACADEMY.—Prof. DEUCHAR announces the opening of his classes on Saturday next. His course last year was a highly successful one, and he will, doubtless, secure a large increase of pupils this year.

REMOVAL.—The Clothing Store of H. FRIEND & Brothers is about to be removed to Werer's old stand, to the U. S. Block, where the public will find *friends*, and be sure to get *fits* before leaving.

☞ P. H. HOFFMAN, Merchant Tailor, at 19 Wisconsin Street, is a candidate for patronage in our advertising columns.

FURNITURE AT AUCTION.—Mr. WALL sells this morning a great lot of genteel furniture at auction. Sale commences at 10 o'clock.

☞ The steamer *Traveller* arrived from Sheboygan last night at 8 P. M., with about 50 passengers for this place. She left for Chicago at ½ past 9.

GREAT BARGAINS in REAL ESTATE,

Chance to buy Timbered Land Cheap.

THE SUBSCRIBER, being afflicted by a pulmonic difficulty, and thereby incapacitated for active business, offers for sale his entire Real Es tate, situated 9 miles from the mouth of Racine, and 16 miles south of Milwaukee, on the Lake Shore, in Wisconsin, and consisting of 500 acres of first quality of heavy timbered land, with 125 acres under cultivation; one half in Winter Wheat.

Those who know the said premises, need no furt er recommendation, as it is known to be, and has ever been considered, one of the *best pieces* of property in the State, being a sufficient distance from Racine and Milwaukee to make it a good point for business, while it has naturally all the advantages either of the towns possess, it being upon Lake Michigan, and having in connection with it a good and substantial pier, 900 feet long, running into deep water, and also on the Lake Shore Rail Road, where is an important station for woodlor and watering, all the stopping. The Pier and Station being but half a mile apart, the one on the east and the other in the west verge of the premises, while equal quantities of the Land lie north and south. The land is well watered, having four living streams of clear spring water running across it and into the Lake: an excellent well and cistern of water are also provided at the stations and commodious dwelling a house.

There are some eight cheap Dwellings, for renting, also 15 Blacksmith Shops for rent or purchase, which is tenanted by a first-class workmen. An orchard, and other improvements have been made; an excellent Saw Mill is in operation at the Rail Road Station. A Post Office (Lambaston) is established, and a store has been kept by the proprietor, but is now closed preparatory to leaving.

Timber at this point is a rare attainment, and is rapidly increasing demand, both as to price, from the choice timber and lumber for vessels, store ware and Rail Road purposes, down to the meanest lot for fire-wood, is without its ready and high value in gold; while the soil for cultivation cannot be excelled, it having the *Premium Winter Wheat Farm* of the State, as awarded by the State Agricultural Society for the last years. (1855.)

Terms cash for the manufacture of the celebrated Milwaukee Brick are ample, at the Pier, and the work can be prosecuted at much less expense than in the city.

In short, there is every inducement and facility offered in this place to any man, or men, of energy, to realize any anticipations they may have in western enterprise and progression.

We are loth to say there never was a fairer field opened to settlers or capitalists.

The land is so located as to admit of being divided into 5, 8 or 4 farms, if desired, and all be well accommodated for roads, schools, &c., and some half a mile from the Rail Road Station, and all but one upon the Lake.

We would add, that a healthier location can not be found upon the Lake, as the water is excellent, the soil dry and arable, with no marshes or swamps adjacents to invite disease, while every thing conspires to make it one of the most desirable places in the world.

The whole will be sold on five next reasonable terms, and opportunity given to allow it to pay for itself

N. B. It will be sold with or without the village plat as desired.

Pine Lake Farm and Country Seat FOR SALE.

☞ SITUATED 25 miles west of Milwaukee, and one mile north of the Milwaukee & Watertown Plank and Rail Roads, and a mile and a half from Hartland and Pine Lake Stations adjoining the lands of the late Geo. R. Mclane, containing one hundred and ninety-six acres, forty-five of which are under cultivation and good fences. The improvements are, a Frame Cottage, ornamentally built, and of the best materials and finish, containing parlor, dining room, five sleeping rooms, kitchen, wood house, and deep stone cellar under all. Piazza in front, and lawn planted with ornamental trees. A large garden, surrounded by a picket fence, and stocked with Asparagus, strawberry and Raspberry beds, and Plum, Dwarf Pear, and other fruit trees. An Orchard of 300 trees of choicest fruit coming into bearing. An excellent well of water, with large, handsome well house over it, and lawn planted with ornamental trees. A large garden, surrounded by a picket fence, and stocked with Asparagus, strawberry and Raspberry beds, and Plum, Dwarf Pear, and other fruit trees. An Orchard of 300 trees of choicest fruit coming into bearing. An excellent well of water, with large, handsome well house over it, and a never failing stream of clear spring water running across it and into the Lake: an excellent well and cistern of water are also provided at the stations and commodious dwelling a house.

There are some eight cheap Dwellings, for renting, also 15 Blacksmith Shops for rent or purchase, which is tenanted by a first-class workmen. An orchard, and other improvements have been made; an excellent Saw Mill is in operation at the Rail Road Station. A Post Office (Lambaston) is established, and a store has been kept by the proprietor, but is now closed preparatory to leaving.

Timber at this point is a rare attainment, and is rapidly increasing demand, both as to price, from the choice timber and lumber for vessels, store ware and Rail Road purposes, down to the meanest lot for fire-wood, is without its ready and high value in gold; while the soil for cultivation cannot be excelled, it having the *Premium Winter Wheat Farm* of the State, as awarded by the State Agricultural Society for the last years. (1855.)

Terms cash for the manufacture of the celebrated Milwaukee Brick are ample, at the Pier, and the work can be prosecuted at much less expense than in the city.

In short, there is every inducement and facility offered in this place to any man, or men, of energy, to realize any anticipations they may have in western enterprise and progression.

We are loth to say there never was a fairer field opened to settlers or capitalists.

The land is so located as to admit of being divided into 5, 8 or 4 farms, if desired, and all be well accommodated for roads, schools, &c., and some half a mile from the Rail Road Station, and all but one upon the Lake.

We would add, that a healthier location can not be found upon the Lake, as the water is excellent, the soil dry and arable, with no marshes or swamps adjacents to invite disease, while every thing conspires to make it one of the most desirable places in the world.

The whole will be sold on five next reasonable terms, and opportunity given to allow it to pay for itself

N. B. It will be sold with or without the village plat as desired.

"The work can scarcely fail of interesting deeply the American reader. Lady Mary lived and wrote in the first half of the eighteenth century, when our land was a component portion of the British empire, and consequently her genius and her fame are ours by inheritance. Her Letters will be found valuable as well as amusing, aiding the student of history to catch the manners and opinions of English society in high life—then the dominant power of the realm, at the time Benjamin Franklin and his co-patriots in the western world were working out the problem of American independence and popular sovereignty."
